

QUOTE

CONTRACTOR:

Quest Diagnostics Incorporated with offices at 500 Plaza Drive, Secaucus, New Jersey 07094 (“Quest Diagnostics”)

RECIPIENT:

Commonwealth of Pennsylvania (“Commonwealth”)

SERVICES:

Quest Diagnostics to provide the COVID-19 RT-PCR (for the detection of SARS-COV-2 RNA) test and related bundled services at the Testing Locations described below, or such other locations as Quest Diagnostics and the Commonwealth may agree to from time to time. Services include patient registration, ordering of testing services through PWN Health LLC and other professional entities, operation of the Testing Sites, pickup and processing of specimens and reporting of results to the Commonwealth and to the ordering provider. Testing Sites will be open Monday, Wednesday and Friday for two hours a day, subject to adjustment depending upon demand.

PAYMENT:

Commonwealth will pay for the Services at the rate of \$150 or \$190 per test based on the average test volume per day, measured by dividing the total patient test specimen volume completed for each month by total event days (the number of days in a month a Testing Site is open). If the Testing Sites have an average test volume per day equal to 20 patients or fewer, the fee is \$190 per test and if the Testing Sites have an average test volume per day greater than 20 patients, the fee shall be \$150.00 per test.

Quest Diagnostics will submit monthly invoices to the Commonwealth and the Commonwealth will pay invoices promptly and will make every effort to make payment within 45 days from receipt.

TERM:

Services under this quote shall be in effect from July 18 until September 25, 2020 unless superseded by a written agreement between Quest Diagnostics and the Commonwealth.

Services under this Quote shall not exceed \$1,000,000.

LOCATIONS:

Quest Diagnostics and the Commonwealth will mutually agree on the number and location of applicable testing sites via email. Sites will be opened or closed based on such mutual agreement. While the number of sites may fluctuate, parties' initial estimates for sites are approximately 10 -20 that would be open on a regular basis.
